

QWO™ - TREATMENT CARE INSTRUCTIONS

Pre-Treatment Recommendations

- 7 DAYS BEFORE treatment (to prevent bruising): Avoid blood thinning over-the-counter medications such as Aspirin, Motrin, Ibuprofen, and Aleve. Also avoid herbal supplements, such as Garlic, Vitamin E, and Omega-3 capsules. Please note: If you have a cardiovascular history, please check with your doctor prior to stopping use of Aspirin.
- Plan your treatment accordingly as for most aesthetics procedures. Post-injection site bruising is common with Qwo™ treatment related to its natural enzymatic reaction with the fibrous bands of the cellulite. We recommend you to plan your treatment around the time you might want to wear a bikini or swimsuit, etc.
- Do not drink alcoholic beverages 24 hours before (or after) your treatment to avoid extra bruising.
- Do not have Qwo treatment if you are pregnant or breastfeeding, are allergic to collagenase, or suffer from any bleeding disorders.

Post-Treatment Recommendations

- Majority of the patients experience bruising after first treatment, and the severity of bruising subsequently lessens after each additional treatment session. The bruising is related to the mechanism of action of Qwo™ and not to the process of injection.
- You may Ice the area for the first 2 days, apply warm compress afterward to facilitate. But in general our body will absorb and untreated bruising will fade in 10 to 14 days.
- AVOID aspirin or ibuprofen products as they may increase your potential to bruise.
- You might experience minor pain, itchiness at the injection site. You may take Acetaminophen/Tylenol if you experience any mild tenderness or discomfort.
- There is no limitation on exercise or activity after treatment.
- There is no need to RUB OR MASSAGE the treated area(s).

- AVOID drinking alcohol for a minimum of 24-48 hours as this may contribute to bruising and/or swelling.
- AVOID extended UV exposure until bruising has subsided. Be sure to apply an SPF 40 or higher sunscreen. 1
- We recommend that you schedule your next treatment in 21 days, and return to our office 28 days after completion of the three(3) sessions for the final assessment of the result. Please call our office should you have any questions or concerns regarding your Qwo™ treatment or aftercare at 573-271-5120 or email us anytime at info@auroramedicalspacape.com. The entire staff at Aurora Medical Spa is committed to patient education, safety and care.
