

SKINPEN MICRONEEDLING POST-TREATMENT

- It is important to keep your skin well-hydrated after the SkinPen Microneedling procedure.
- Microneedling causes a temporary increase in water loss, so keeping your skin hydrated and protected during this period will aid your recovery process.
- Avoid physical activity, sweating, and makeup for 24 hours
- Avoid exfoliants, retinol, and Vitamin C for 1 week
- No submerging the area in chlorine or salt/lake water for 1 week
- No sun exposure for 1 week.

WHAT TO EXPECT

- You can expect redness, sunburn sensation, and possible swelling for the first 24-48 hours.
- Use ice to minimize discomfort and swelling.
- Sandpaper sensation/dryness for 7-10 days.
